NOTE T

The public has been loud in its praise and testimony of the musical and concert offerings presented in conjunction with the cinema attractions at Moore's Rialto Theater.

They have established a standard all of their own.

Whether a String Quartette- A Duet-or Solo is announced, the public is assured of quality presentation, and whether it be a song recital or instrumental number, this institution has both the foresight and hindsight to insure its reputation by offering only artists that no other Photoplay Theater in Washington has equalled.

Victor Herbert set our standard. Professor Josef Kardos, celebrated Hungarian pianist, in concert, with Miss Marjorie Moody, soloist with Sousa's Band, augmented by the Famous Rialto Orchestra soloists, constitute the musical treat all this week.

The artist [to appear in the near future] will be another genuine surprise. NO IMITATION WILL BE OFFERED, A REAL

first class entertainment.

SHUBERT-BELASCO—

Richly endowed with those rare

qualities usually grouped under the general descriptive term, personality, Miss Hetty King, late of London, oc-

cupies the particularly bright place

in an otherwise average program offering at the Shubert-Belasco this

Miss King, like Vesta Tilley and a

tistes, as they have become known

to patrons of the American variety

theaters, delights in appearing in male costumes and singing songs of

a delightfuly humorous blend. Her impersonations of a British "limey" and a Scotch soldier were perhaps the best of her quartet of offerings.

"Florodora," a condensed version of the musical comedy of that name

is a pretentious offering in point of cast and staging and revives the most popular of the song hits of its pro-

totype in which the famous double

sextette, as is to be expected, carried off first honors. The principals included Hattie Fox, Emma Noe, George Spaulding, Elmer Haynes and Fred Walton.

"In Argentina," described as a South

American melange of mirth, melody and dances, is all of that, and with but

one exception, the company is composed of native performers. That ex-ception is Harry Ormonde, a comedian

of the type that Harold Lloyd brought

to the screen. Among the many bril-

liant dancing numbers, that of the

South American apache was easily the

nost sensational.

Burt Shepard opens the bill with

some unique feats with the Australian

La Pinski's dogs, the final act, is

really one of the most extraordinary

offerings of its kind, and the charming

La Pinski herself deserves not a little credit for her skillful work in training the canine thespians.

There is a grand illumination at the Gayety this week, where the "Flashlights of 1921" are holding forth in a burlesque entertainment that is full of novelties. A clever book has been written around the cleaning of

written around the allegation of Rhyme and Reason that burlesque's

two leading satellites, Hokem and

Jazz, are undermining the drama in popular favor. It takes two acts and

dozen scenes to try burlesque and the action throughout is a scream.

That popular pair of comedians,

The New Laws

on teeth cleaning—five of them

Dental science has adopted new laws on teeth cleaning. They mean whiter, cleaner, safer teeth to those who follow them.

Millions employ these new methods, largely by dental advice. Now this ten-day test is offered to show every home the

1—Fight the film

The first law is to fight filmthat viscous coat you feel. It dims the teeth and causes most tooth troubles.

Film clings to teeth, enters crevices and stays. Old ways of brushing do not end it. So few have escaped some form of film

Film absorbs stains, making the teeth look dingy. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

Two methods now

Two ways are now known to fight film. Able authorities have proved their efficiency. Leading dentists everywhere now advise their daily use.

Both are embodied in Pepsodent - a scientific tooth paste. They keep the teeth uniquely clean and also highly polished.

Three other laws

Modern starchy diet also calls for other helps to Nature. So every use of Pepsodert brings these three desired results.

1-A multiplied salivary flow.

2-Multiplied starch digestant in the saliva, to digest starch deposits that cling. 3-Multiplied alkalinity of the saliva, to neutralize mouth acids which cause tooth decay.

Thus Pepsodent fights two deposits-film and starch-which may do great harm to teeth. Also the destroying acids, and in Nature's way.

Brings a new era

These mean vast improvements on old methods. In fact, old methods brought the opposite effects. Pepsodent has introduced a new era in teeth cleaning, and millions now enjoy it.

Now we urge that you send for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the filmcoats disappear. Feel the other good effects.

Then decide by what you see and feel. Do this for your own sake. Cut out the coupon now.

Pepsodent

The New-Day Dentifrice

A scientific film combatant, whose every application brings five desired effects. Approved by highest authorities, and now advised by leading dentists everywhere. All druggists supply the large tubes.
